Nasal-Aire Petite®

A Revolutionary Interface for Your Smaller Patients

Hanging tubing reduces moisture build-up underneath the nose.

Patients can rest comfortably in various positions without the restriction of traditional nasal masks and cumbersome headgear.

Easy to fit, ergonomically designed **Micro™** headgear with patented elbow feature reduces facial pressure points for added comfort.

Additional Features:

- Five sizes smaller than the Nasal-Aire II extra small
- Virtually leak-free — does not chill the nose
- Promotes patient compliance
- Minimal parts
- Easy to assemble and clean
- Built-in swivel
